LEADERSHIP

2022 - 2023 **Quantum Computing Club** co-founder and VP.

- Organization of seminars, including one with Dr. Benjamín Perez-García on the implementation of Deutsch’s algorithm with linear optics.

- Organization and construction of a variety of courses that gave undergraduate students tools to program and analyze quantum algorithms.
- Active participation in the organization of my institution's first **quantum hackathon**. Helped with dissemination and spreading the invitation to external faculty and students.
- Coordinated and teaching of workshops in collaboration with the *Physics Student Society* (AEF in Spanish) from Nuevo-Leon's Autonomous University (UANL).
- Organization, planning, and direction of quantum computing bootcamps, offering intensive courses to students from ITESM as well as from other universities.
- Our outreach has grown beyond the state of Nuevo León.

2023 SPIE Student Chapter President
 2022 – 2023 Given talks and short courses on Julia, Python, and \LaTeX .
